Bonn, 07.03.2007

Letter of intent

The University of Bonn expressly welcomes the application of DESY to build up the Helmholtz Alliance "Physics at the Terascale".

Provided that this Alliance will be co-financed by the Initiative and Networking Funds of the Helmholtz President we intend to participate

as a *participating partner*, applying for funding from the budget of the planned Alliance while also contributing own funding to the planned Alliance

Our intended participation / cooperation is defined as follows:

Contribution to Research Topic 1: Data Analysis: Theory and phenomenology of Terascale Physics at LHC and ILC (applications in Fellowship programme)

Contribution to Research Topic 3: Detector Physics: Build up a laboratory for Electronics System Development for long-term support of the Alliance

Contribution to Research Topic 4: Accelerator Science: Contribution to the research topic in the fields of electron sources and beam dynamics and diagnostics (participation in the PhD programme)
